pin cushion

Follow the instructions below to complete your Pin Cussion project

Cut all the leather pieces. Note that the second page of patterns are different designs for the top leather. Choose only one that you like best for each of your cushions

First stitch the top two pieces together like in the pictures below

You should get a slight dome after you are done

Next take the long strip and stitch it at both ends to form a loop

Next take the two pieces you just finished and attach them as shown next. Note you can transition from the stitching needed to close the long strip into attaching the top seamlessly

After you are done, you have the top ready.
Next you need to source a sponge big enough to fit very tightly inside the cushion. In fact it should be about twice as big as your cushion

Place the bottom and force the sponge down into the cushion

Stitch the bottom in place to finish your cushion

And you are done!!! Great job. That was easy
